MY SKILLS

HTML / CSS

Typescript / Javascript

Rust

Next.js / React

Linux

Supabase / PostgreSQL

EDUCATION HISTORY

Associates - Computer Networking

High-Tech Institute - Phoenix, AZ

CAPSTONE PROJECT: AUDIOPHILE

Audiophile.tituscoleman.dev | [GITHUB](#)

Full-stack eCommerce site built using Next.js, Tailwind CSS, and Sanity CMS as a culmination of all learned tech thus far. Custom UI translated direct from a Figma design file using Typescript for full-stack typesafety, Sanity for product management, and takes advantage of Next's dynamic pages, SSR and layouts. Adherence to conventional commit format, linting via ESLint and Prettier formatting.
